ABOUT ODESSEY PRODUCTS

KRISHNA ENTERPRISES is a company engaged in the manufacturing of various Health care products. The Company, managed by the technocrats with long standing experience, is able to meet the demanding standards of the Defense forces and open market for its products. We have earned an excellent reputation in the domestic markets owing to our commitment for excellence and quality of products. Due to our hard work and fore sightness the firm has made remarkable progress. While carrying out the business, we have gained vast knowledge and sound experience in this line of business. Which are being sold within the country and overseas markets?

Our products are exported to at least seven countries and are widely accepted as the standard benchmark in quality products manufactured by us. Thanks to your continued patronage we have increased our scales of operation. Correspondingly whatever benefits have come through bulk manufacturing are being passed on to your esteemed selves as a token of our appreciation. We do believe you will find the offer very attractive. With rigorous quality control and constant R & D, we have brought down the customer complaints to almost "ZERO " level. Apart from this, most of our range is supplied with a warranty clause. Quality is completely ingrained at all levels at Odessey Products; it is completely integrated within our manufacturing facilities, in our work culture and in the fine products that we manufacture for our clients.

We give immense stress on Research & Development at various levels of manufacturing and testing. Continuous improvement in the quality of existing products, services and development of new products is a policy matter at our works.

Two decades of phenomenal growth have been attributed to our commitment in helping people to alleviate their body discomforts in simple and convenient ways, phrases to provide a safe and effective treatment. As we respect medical business as a sacred promise user, we have reformed and expanded our operation system to achieve our BEST goals:

- Be the best in manufacturing and marketing for the entire product range.
- Earn the hearts of global customers by providing heart- to-heart products and services.

- Strengthen our position as a pioneer in the entire product range for health care applications. Train our employees to be self oriented in moral quality and full ability for product knowledge, know how sharing, crisis management and public relations.

MANUFACTURING UNIT

ODESSEY ELECTRIC UNDER BLANKET

ELECTRIC BLANKET works on simple principle that heating heals body faster as compare to other treatments .This factor alone make a electric blanket not just another mattress, But In fact – A revolutionary way to sleep and heal. The medical benefits are just one of the aspects of buying a blanket. Do try and remember – it's a **NEW SLEEPING CONCEPT.**

The **ODESSEY ELECTRIC UNDER BLANKET** is meant for perfectly healthy people also. It can give you the kind of pleasure and relaxation that no other mattress will equal .Take a second to imagine to sleep on slightly heated surface in chilling winter. You can simply how relax you are going to feel.

You would be quite surprised to hear that on a normal mattress a person turns 60-80 times in just 8 hours, Whereas it has been scientifically proven that on a electric blanket, people don't turn more than 5-6 times .To put it simply sleep is for more restful on a electric blanket than simply on a conventional foam mattress. satisfaction with years of trouble free service during the cold winter months.

STILL WANT THAT OLD FOAM MATTRESS?????????

HEALTH BENEFITS OF USING A ELECTRIC UNDER BLANKET ?

Electric Blanket are the best sleep system we know to help our bodies relax and to provide maximum body comfort. They are comfortable, warm and durable. Discover a better way to sleep, night after night, year after year. As a result you will experience improved blood circulation and rarely toss and turn, which can disrupt a good night's sleep. You will awaken feeling refreshed, well rested and energized.

- **Helps relieve pain**

Relieves pain and reduces health problems such as allergies & sinus.

- **Greenest heating solution**

Average energy consumption per night is about 0.5 electric unit (KWhr).

- **Save money**

Compared to other electric heating methods, it can save as much as Rs1500/- per month.

What are Electric Blankets

- Electric blankets are just like normal blanket with an integrated grid of thin, insulated heating element underneath to generate heat internally and use adjustable thermostats to control temperature.

- Electric blankets come in two types: **Under-blankets** are used by putting them under the bedsheet. **Over-blankets** which like normal blankets or quilts, are taken over the body like normal blankets.

ABOUT HEATING PADS - (Waterless Household Thermal Therapy)

Remember, the last time you had pain in your back and were advised to foment it? You had to boil water or you did not get constant comfortable temperature first boil water, use the traditional hot water bag. The temperature

But Now Need Not to Worry!

Here Introducing Automatic Fomentation Heating Pad, ODESSEY.

was either too high or you did not get constant comfortable temperature. Our Heating Pads are flexible in nature, operates on 220-250 volts (AC), is available in the different sizes. It can be easily wrapped around body parts. The electric heating pad is provided with built in snap-on-off thermostat which automatically cuts off after reaching the set temperature. A three step voltage control dipole switch controls the temperature of H.P. & is of 40/60 watt. (approx.). A marvelous way of safe household heating therapy. It saves efforts of water boiling, filling/refilling, spilling, skin burns, etc. Gradual and comfortable temperature rise. Desired variation in heat levels. Light weight, handy, durable, long life and economical.

Facts for Heating Pads

Our Survey

There are many ways in which to deal with painful areas of the body, such as muscle pains, cramps, joint pain, stomach aches and the many other kinds. Often the easiest way to deal is to take painkillers.

But not everyone likes to take painkillers because of their side effects and potentially harmful effects on general health. For those who prefer not to take pills, there are handy Heating Pads that gently soothe away the pain by providing heat directly on the affected area.

FEATURES

The striking features of this innovative product includes:

- Adequate size to cover body portion.
- The most striking features are compared with traditional methods. The temperature remains at constant comfort and if you feel too hot at any time.
- Simply switch off (using handy switch).

Another exclusive feature is flexibility. You can wrap it around limbs, neck, back etc. for total localized comfort.

MEDICAL FACT AND FINDINGS

- Soothes sprain pain in foot/thigh/neck/back etc.
- Post fracture use. Soothes painful inflammatory swelling, boils and abscesses etc.
- Comfort in post delivery/ allied problems of ladies.
- Quick relief in Rheumatoid Arthritis, lumbago, retention of urine, internal body swelling, frozen shoulder etc.
- Boon for sportsmen, hard worked and strained executives.
- Warmth and personal comfort in air- Conditioned area.

How do they benefit us

• No Allergic Reactions

Unlike painkillers, there are no allergic reactions or danger of overdosing.

• Helps relieve pain

Relieves pain, swelling, inflammation and can be used for many other types of ailments.

ABOUT WARMERS

"The fastest way to get yourself warm depends on the kind of warmers you buy"

To the untrained eye, all warmers pretty much look alike - but if you peek underneath the covers you'll find a bewildering array of fillings, which provide the heat therapy that relaxes the tired back and legs muscles. It helps ease stiffness and soreness and allows you to feel rested and fresh.

ODESSEY FOOT WARMERS

With its effective electric heating system, the Foot Warmer from Odessey helps to keep your feet lovely and warm. Plus, with the electric foot warmer you can control the temperature so you can set it to really heat up in winter, but also use it to keep nice and warm in damp or rainy weather.

ODESSEY CUSHION WARMERS

Our Cushion Warmer is completely self-contained and can be used over and over. Our cushion warmers are a generation ahead. Odessey Cushion Warmers are light. The heating wires are inserted into the padding of the warmer. When you need extra warmth just reach out to the Comfort Control on your side and turn it to the setting just right for you. They usually obtain power for their heating processes through a cord which can be plugged into a socket.

- Warm you in cold environment
- Comfortable temperature
- Hand Washable design

ODESSEY ELECTRIC HEATING JACKET

Electric jackets are jackets which exhibit properties similar to those possessed by electric blankets. They usually obtain power for their heating processes through a cord which can be plugged into a socket. Keep warm and fashionable during the cold winter periods with this electrically heating jacket. It comes in either, medium or large size.

- Warm you in cold environment.
- Comfortable temperature.
- Wicks moisture to keep you dry and comfortable.
- Hand Washable design.

Facts for Warmers

Some trivia for starters

- Electric Warmers have been around world since almost 1900.
- Up to 5 million pieces are sold annually in US and Europe each.

How do they benefit us

• Better, more rest

Heating promotes your body's thermoregulation and blood circulation, which both positively impact your daily energy level.

• Helps relieve pain

Relieves pain and reduces health problems such as allergies and sinus.

• Save money

Compared to other electric heating methods, it cuts 95% of your electricity bill.

• Ultra-portable

Can run on inverters and charging points.

ABOUT PILLOWS

"Getting a good night's sleep can depend on the kind of pillow you buy "

To the untrained eye, all pillows pretty much look alike -- but if you peek underneath the covers you'll find a bewildering array of fillings, including soft, traditional down and feathers; latex foam; polyester gel and memory foam; even such exotic materials as buckwheat hulls.

ODESSEY AIR PILLOWS

The air pump of the Air Pillow lets you adjust the softness of the pillow from very soft to medium, firm, or thick. The Air Pillow lets you personalize your pillow for your unique requirements, making it perfectly fit your body and comfort. Air Pillow is created to hold your head and bring complete comfort and support. Made for back or side sleepers, the Air Pillow is so soft that you are going to love resting on it each and every night.

HEALTH BENEFITS OF AIR PILLOWS

- Although all pillow types have their pluses and minuses, however, experts say down and feather pillows don't offer enough neck support, and can cause allergies in susceptible individuals (hypoallergenic down and feather pillows are more expensive). So, Air pillows are the best option for a comfortable sleep.

MEDICAL FACTS & FINDINGS

- Anti stress:** Sleep without any stress, avoids the accumulation of static electricity when sleeping, repels the dust which causes allergic reactions and releases the body from stress.
- Relaxed sleep:** induces the sleep, provides an excellent muscular relaxation and corporal balance, helping your head to clear off for a deeper and more relaxed sleep.
- Adjustable design supports head and neck entirely.
- Precision-cut foam base brings additional neck support.
- Soft, removable plush cover.
- Perfectly shaped to bring total comfort.

Facts for Air/Heating Pillows

Some trivia for starters

- Pillows have been around world since almost from a long ago.
- Upto million pieces are sold annually in US and Europe each.

How do they benefit us

- Unparalleled Comfort**
Soft tricot polyester fabric is comfortable next to the skin .
- Promote health**
Proper Comfort whole night promotes sound sleep and thus better health.
- Helps relieve pain**
Relieves pain and reduces health problems such as allergies and sinus.
- Ultra-portable and versatile**
These can be rolled up or folded and carried or stored relatively easily, making them a popular choice for camping trips and bedding.

ABOUT ODESSEY BEDS

Beds offer many benefits over traditional mattresses. We spend a large portion of our lifetime sleeping or trying to sleep. Therefore it is no surprise that everyone wants the bed on which they sleep to be as comfortable as possible. Air & Water mattress beds are increasingly being preferred over other traditional mattresses like coil spring mattresses as they have proved to be superior when it comes to comfort while sleeping and providing health benefits as an added bonus.

ODESSEY AIR BEDS

Air beds come equipped with chambers that are inflatable as well as adjustable. The air beds can be fine tuned to your requirements for comfort. They adjust to the contours of your body giving each portion firm support. The overall firmness of the bed can be adjusted by controlling the air pressure. This is very useful because your requirements may change depending on the type of activities you were engaged in during the day. The bed also gives comfortable support to injured parts. The air mattress bed eliminates the uncomfortable pressure point pains that develop while sleeping on traditional mattress beds.

Facts for Water/Air Bed

Some trivia for starters

- A waterbed, water mattress, or flotation mattress is a bed or mattress filled with water.
- An **air mattress** is an inflatable mattress sleeping pad
- Up to 5 million pieces are sold annually in US and Europe each.

How do they benefit us

- **Improve quality of life**
Other heating methods can warm your room but none can warm your bed.
- **Alleviate allergies**
The cover over the mattress can be regularly washed—thus virtually eliminating house dust mites in the bed.
- **Helps relieve pain**
Potentially provide some measure of relief for people who suffer with back pain.
- **Ultra-portable and versatile**
The deflated mattress can be rolled up or folded and carried or stored relatively easily, making them a popular choice for camping trips and for temporary bedding at home for guests.

ABOUT WATER BEDS

Water Bed works on simple principle that liquid exert pressure equally in all directions. This factor alone make a waterbed not just another mattress, But in fact – A revolutionary way to sleep. The medical benefits are just one of the aspects of buying a bed. Do try and remember – it's a **NEW SLEEPING CONCEPT**.

The **ODESSEY** Waterbed is meant for perfectly healthy people. It can give you the kind of pleasure and relaxation that no other mattress will equal .Take a second to imagine floating in your sleep. You can simply how relax you are going to feel.

You would be quite surprised to hear that on a normal mattress a person turns 60-80 times in just 8 hours, Whereas it has been scientifically proven that on a waterbed, people don't turn more than 5-6 times .

To put it simply sleep is for more restful on a waterbed than on a conventional foam mattress. Moreover Waterbed can withstand the equivalent of 250 kgm / sq.inch- which is more than what heaviest man in the world would weight!!!!!!

HEALTH BENEFITS OF USING A AIR BED / WATER BED

Air/Water Bed are the best sleep system we know to help our bodies relax and to provide maximum body support. They are comfortable, Hygienic and durable. Discover a better way to sleep, night after night, year after year. As a result you will experience improved blood circulation and rarely toss and turn, which can disrupt a good night's sleep. You will awaken feeling refreshed, well rested and energized.

(An ISO 9001: 2008 Certified Company)

WATER BEDS ADVANTAGES OVER TRADITIONAL BEDS

- The bed shapes exactly to the body, thus minimizing pressure, especially around the joints. Waterbeds remove pressure from the spine allowing the spinal muscles to fully relax. This can aid in the treatment of back pain for some individuals. In paralytic or movement-impaired people they can reduce the risk of bedsores.
 - It is impossible for dirt and dead skin particles to penetrate the water mattress, which can then be wiped periodically with a cloth and vinyl cleaner. The cover over the mattress can be regularly washed thus virtually eliminating house dust mites in the bed. Dust mites can trigger asthma, eczema, and allergies in people sensitive to them.
 - Waterbeds are currently being used in hospitals throughout the United states, Europe and Australia. A wealth of sound medical data confirming the therapeutic benefits of flotation sleep is now emerging.
-
- Waterbed warmth works to speed relaxation, soothe sore muscles and relieve tension
 - Waterbed generally increases the ease of falling asleep.
 - Waterbed permits longer periods of sleep, with less movement and fewer re-awakening.
 - Waterbed sleep contributes to a more relaxed feeling in the morning and helps to reduce morning stiffness.
 - Water mattresses do not impair blood circulation or create bed sores, because of even support distribution and reduction of localized body pressure.

"An Air/Water Bed is the most sanitary surface one can sleep on."

BACKACHE TREATMENT

All of us come up against back problems at one stage in our lives, whether it is a serious condition or a niggling complaint due to improper sleeping posture, an Air bed can afford relief and often a complete solution.

Medical Water Bed

Luxury Water Bed

Air Bed

What are Air / Water Beds

- An air mattress, also known as an airbed, is an inflatable mattress, the majority of which are usually made of polyvinyl chloride (PVC). They are inflated either orally by blowing into a valve, or with a manual foot-powered or more commonly inflated via an electric pump.
- Electric blankets need very little electricity and are thus very economical to run. Average electric consumption for a single bed sized electric blanket is 40-60 Watt.

History

Waterbeds intended for medical therapies appear in various reports through the 19th century. The modern version, invented in San Francisco and patented in 1971, became an extremely popular consumer item in the United States through the 1970s.

Larger, Air beds have come on the market in recent years that are intended for guest use, or as permanent beds in the bedroom.

USAGE

- Keep the belt in the refrigerator for minimum one hour.
- Strap it around your eyes to experienced a cool relief.
- Preserve it in the refrigerator so that it is available for anytime.
- Relives in Toothache

Facts for Cool Packs

Our Survey

- Ice is an inexpensive, yet astoundingly effective treatment for pain and swelling.
- A big reason for this is that many healthcare providers themselves do not appreciate the benefits of ice packs and other cold treatment modalities

How do they benefit us

• Promote healing

Inflammatory conditions such as tendonitis, "pinched nerves", and nerve compression syndromes such as carpal tunnel benefit from icing.

• Helps relieve swelling

Ice and cold treatments constrict blood vessels, helping to decrease swelling.

• Relieve Puffy Eyes

Gel-filled masks designed for this purpose
